2012 – France Bike Hire

Booking form & Conditions

A bike rental is the convenient and carefree solution for anyone who wants to avoid the hassle and inconvenience of bringing your own bike on tour.

We want to make it as easy as possible for you to experience riding in this beautiful and bike friendly part of the world.

Bike hire is available BUT please note that we have a limited supply and reservations must be made by the 24th February 2012. NO booking requests can be made after that date.

Our 2012 bikes are:

* Trek Madone 4.5 Triple (2011 and 2012)

* Trek Alpha 1.5 (aluminium) (2011 and 2012)

*** The model can be changed at any time before collection.

Hire Rates:

1. Tour 1 only:	€245.00*
2. Tour 2 only:	€315.00*
3. Tour 1 & 2:	€490.00*

If the bike is required earlier due to courier schedules, an additional day will be charged.

*Additional fee - Courier costs

A fee will be charged for bike delivery from the Bike Rental depot to your tour start and finishing locations. This cost will be added to the per day rate once the exact number of people requiring bikes is confirmed, so we can do one bulk delivery and spread the cost.

In 2012 – the bikes will be collected from Pau on the 21st July – and NOT Paris as this service is not available

What about insurance?

Insurance is not provided in the rental costing. Renters are responsible for any damage to the bikes (excluding any minor nicks or scratches). Renters are liable for the replacement cost should the bike be lost or stolen. Bike rental - replacement cost is up to €1500 for a lost/stolen bike. Our recommendation is to purchase travel insurance for your trip, and make a claim through the 'personal liability' section.

What if I need repairs or adjustments during my trip? (Contact the leader)

If possible, we will return the bike to Bedoin (in Provence) and the bike rental company will correct any problems that are not a result of accident or misuse without cost and get you back on the road as soon as possible. If repairs cannot be made quickly a replacement bike will be provided. If it is not possible to return the bike to Bedoin, our Tour leaders will take control.

The bikes generally can be taken to a bike shop and you will be reimbursed your costs for authorized repairs when the bike is returned.

Booking form & Conditions

What we need from you now to request a bike:

To ensure we hire the correct bike for you, we would appreciate if you will provide the following important details listed below and the measurements as per the diagram.

Name in full:

Tour: * Alps / Grenoble – 8th-13th July
* Pyrenees to Paris – 13th -23rd July

What bike are you currently riding?

What is the frame size?.....

What is your height? (cms)

What is your (leg) inseam measurement?

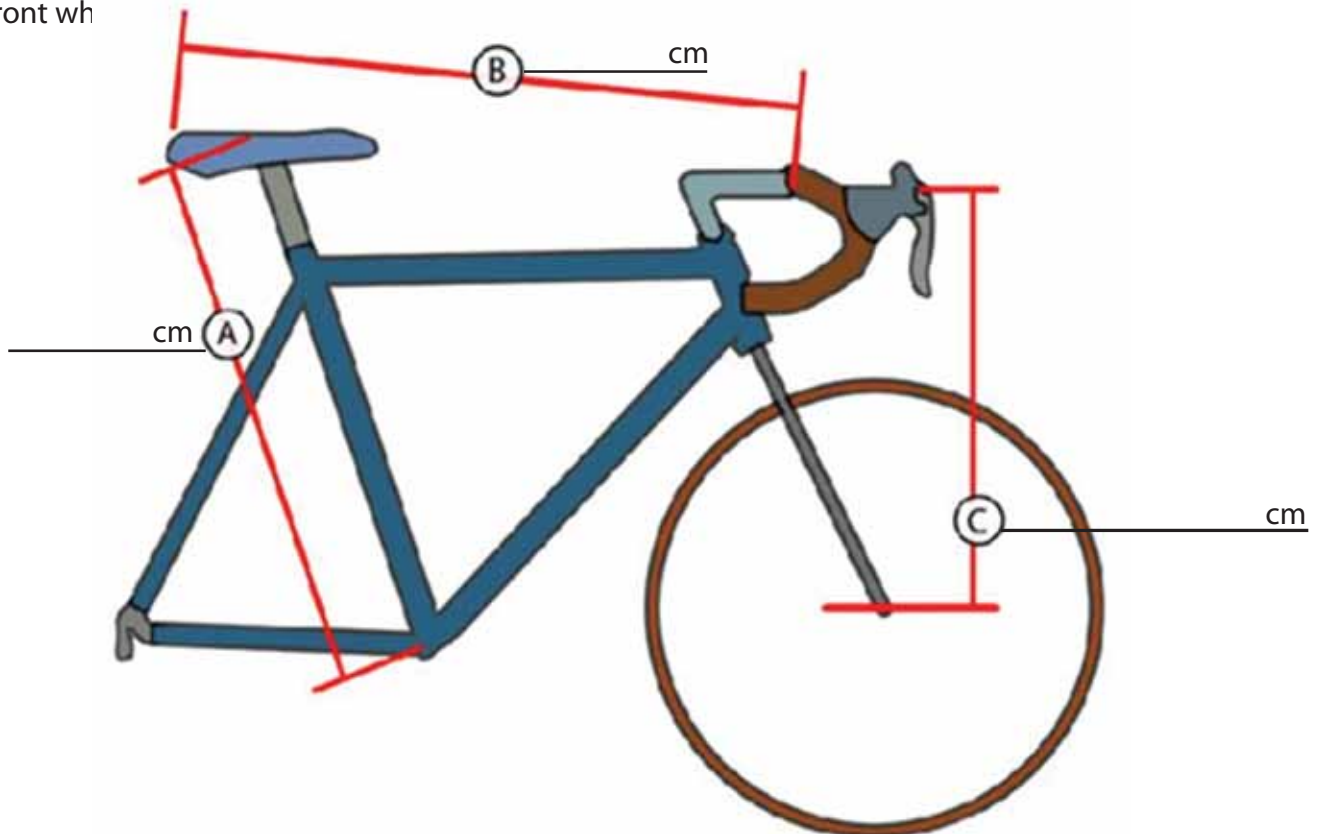

Please bring your own pedals

Please add the measurements to the diagram below and send it all back to me.

Measurement A: Saddle Height: measure the distance from the top of your saddle in a straight line down the seat post to the centre of the crank

Measurement B: Reach: Measure the distance from the back of your saddle to the front of the stem.

Measurement C: Grip height: measure the distance from the top of the stem in a straight line to the centre of the front wh
